

Fictional Human and Real Robot: Sharing Spaces with Robots

In a future where intelligent androids are fully integrated with everyday life, how do we distinguish ourselves as human?

Sheffield Hallam University, City Campus, Heartspace Atrium

Interactive display, scriptwriting and filmmaking sessions

November 19th and 20th | 10:00 – 15:00

You will be greeted by robot Pepper, robot Emma (also known as Betty) and the robot currently nicknamed as 'Green'; you can visit the Virtual Reality robotic museum and encounter robotic avatars with human faces

At 12.00 noon on both days there will be a scriptwriting workshop and fiction filmmaking session for visitors to express their response to the imminent reality of robot citizens becoming part of our everyday lives

Interactive display and film screening

November 23rd | 16:00 – 20:00

The film made on the 19th and 20th of November will be screened on Wednesday 23rd November, at the Void, at 17.00, followed by an informal discussion

The interactive display of work in robot, A.I. and VR technology developed by Sheffield

Hallam University researchers at Sheffield Robotics will also be open

Bank Street Arts, 32-40 Bank Street, Sheffield

A complementary exhibition of robots impressions. Present and Future Vision

November 17th — 25th | 11:00 – 16:00 *closed on Mondays and Tuesdays

SHEFFIELD ROBOTICS
