- ◆ Commencement of floor slab pouring.

SITE REGISTRATION NO.

Considerate Constructor Scheme

Graham Construction is an associated member of the Considerate Constructor. This site is registered with the Considerate Constructor Scheme which was set up in 1997 as an industry initiative, set up to improve the image of construction. Currently over 62,000 construction sites have registered with the Scheme. The CCS has helped shape construction into a more considerate industry, one that takes pride in its image and works positively towards its neighbours, its workforce and the environment. More information regarding the scheme can be found at

www.ccscheme.org.uk

GRAHAM was formed as a construction company over 200 years ago, starting life in Northern Ireland, we now operate throughout the UK and Ireland with offices in Aberdeen, Hillsborough, Northern Ireland, Dublin, Edinburgh, Glasgow, Manchester and St Neots and undertake building, civil engineering and facilities management services. We employ over 1300 staff and remain a family owned and operated business with Michael Graham our Executive Chairman heading our operations.

SHEFFIELD HALLAM UNIVERSITY HEART OF THE CAMPUS

PROJECT NEWSLETTER JUNE 2013

**Sheffield
Hallam
University**

HEART OF THE CAMPUS

Welcome to the first issue of the Heart of the Campus monthly newsletter, we trust this will keep you informed during the construction of the new Heart of the Campus .

We set up on site at the beginning of March and will complete the construction of this building in the Autumn of 2014. We hope that we have not caused too much disruption to date and we will endeavor to continue to keep disruption to a minimum throughout the duration of the project.

Work has progressed well since we began onsite in early March, with the entrance to the site widened and prepared for construction works. All trench fill and foundations onsite has been completed on program. This has allowed us to commence with the rising elements of the build and you will shortly be able to see the full extent of the building footprint as we progress the floor slabs.

If you have any questions or concerns about this month's work or indeed the project in general, please feel free to contact the site directly. There are various ways you can contact the Site Management team.

So what are we Constructing ?

The scheme will create a new heart to the Collegiate Crescent Campus providing almost 9,500sq.m of high quality academic, teaching and social spaces in a new hub building. Alongside student services and general teaching there will be a new cafe, open learning zones and IT rich areas improving the student experience. The building will also provide a new base for the departments of Law, Criminology and Community Justice and Psychology, Sociology and Politics in bespoke teaching areas.

The proposals arrange spaces around a three storey atrium bringing light into the heart of the deep plan scheme and providing a focus for hub activities and primary circulation routes. On the ground floor are the cafe and social learning areas, linking all the entrance areas and providing access to a new external landscaped area on the North of the site. On the upper floors are bespoke teaching areas and staff offices. Terraces on the upper floors maximise the links with the surrounding landscaping and providing external social spaces for staff and students.

Meet The Team

At Graham Construction we like to develop personal working relationships within the local community, therefore each month we will introduce a member of the Site Management .

This month we would like to introduce our Community Liaison Officer Amanda Wright. Amanda graduated in Social Policy MA (Hons) from the University of Edinburgh. She has worked in the Financial market and in the Charity and Voluntary sector. She has worked for Graham Construction for the past two years and thoroughly enjoys the buzz and challenges of the Construction Industry. Amanda is a widowed mother of two teenage boys who keep her extremely busy out of work. She enjoys cycling and regularly takes part in Bikeathons to raise funds for a charity that helped her late husband. She also enjoys supporting her local football team.

If you are part of a local organisation or group and would like to have a site visit or are interested in Graham Construction getting involved in your local area, then please contact Amanda Wright

Tel: 07584 700096

E-mail: Amanda.wright@graham.co.uk
