

Let's talk about relationships project research form

We are starting an exciting project to help international students navigate relationships. The aim of the project is to improve international students' knowledge about sexual consent and sexual health. Please help us make this project successful by telling us what you need to know about these topics.

All the information you provide will be kept CONFIDENTIAL. We are using this ANONYMOUS form and any responses you give CANNOT be traced to you in any way. We will ask you about your gender and nationality because we want to understand how these characteristics influence your understanding of relationships.

Thank you very much for your help
